Bell 212 Helicopter

This part is used on Bell 212 Helicopters, a powerful twin-engine model known for its versatility and performance in extreme conditions. Often called the "Twin Huey," the Bell 212 excels in both civilian and military roles, from search and rescue to offshore transport. **What Makes the Bell 212 Exceptional:**

- **Twin-Engine Power:** Offers enhanced safety and power, particularly in high-altitude and hot-weather operations.
- **Spacious Cabin:** Accommodates up to 14 passengers or large cargo loads, making it ideal for troop transport and emergency evacuations.
- **Proven Reliability:** Widely used by militaries and emergency services around the world for its dependable performance.
- **Multi-Mission Capability:** Easily configured for SAR, medevac, firefighting, and utility missions.

The Bell 212's adaptability and robust design have made it a go-to helicopter for challenging environments and critical operations.

Condition and Unit of Sale

UNSERVICEABLE: These parts are currently not functional and cannot be used without repair. They have been removed from service due to a failure or degradation of their components. Customers purchasing unserviceable parts may plan to repair, refurbish, or cannibalize them for spare components. These parts are typically sold "as is," without warranty, making them a potential cost-saving option for those who have the capability to restore them to working condition.

SOLD PER EACH: This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.
