Bell 407 Helicopter

This part is used on Bell 407 Helicopters, a high-performance single-engine model that offers exceptional speed, agility, and payload capacity. The Bell 407 is widely used in law enforcement, medical transport, and utility operations. **Key Strengths of the Bell 407:**

- High-Powered Engine: Provides the speed and lift necessary for a wide range of missions.
- Advanced Avionics: State-of-the-art systems for enhanced safety and mission effectiveness.
- Superior Agility: Known for its maneuverability, making it ideal for search and rescue and law enforcement.
- **Versatile Application:** Suitable for a variety of roles, from corporate transport to heavy-lift utility work.

The Bell 407's combination of power and versatility makes it a top choice for operators needing a

reliable and adaptable helicopter.

Condition and Unit of Sale

NEW SURPLUS: These parts are classified as new and unused, meaning they have not been installed or placed into service. However, they come without traceability or original manufacturer certifications, which might be required for certain high-level regulatory uses. Our company provides its own Certificate of Conformance (CoC) as a statement of assurance that the parts are in good working condition and have been sourced from reliable channels. These are ideal when the focus is on cost-effectiveness without compromising on quality.

SOLD PER EACH: This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.
