Bell 412 Helicopter

This part is used on Bell 412 Helicopters, a multi-role twin-engine model known for its reliability and advanced capabilities. The Bell 412 is utilized in various demanding operations, including search and rescue, offshore transport, and military missions. **Why the Bell 412 Stands Out:**

- **Twin-Engine Reliability:** Provides redundancy and power, ensuring safe operations in challenging environments.
- **Spacious Cabin:** Offers ample space for personnel or equipment, making it ideal for SAR and medical missions.
- **Multi-Mission Flexibility:** Can be configured for numerous roles, from troop transport to firefighting.
- **Durable and Dependable:** Built to handle the toughest missions with ease, providing reliable service worldwide.

The Bell 412 is the helicopter of choice for operators who need a powerful, flexible, and trustworthy aircraft for a wide range of challenging missions.

Condition and Unit of Sale

NEW SURPLUS: These parts are classified as new and unused, meaning they have not been installed or placed into service. However, they come without traceability or original manufacturer certifications, which might be required for certain high-level regulatory uses. Our company provides its own Certificate of Conformance (CoC) as a statement of assurance that the parts are in good working condition and have been sourced from reliable channels. These are ideal when the focus is on cost-effectiveness without compromising on quality.

SOLD PER EACH: This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.
