PART NUMBER INFORMATION

Unpunctuated: 412240001101

Bell 412 Helicopter

This part is used on Bell 412 Helicopters, a multi-role twin-engine model known for its reliability and advanced capabilities. The Bell 412 is utilized in various demanding operations, including search and rescue, offshore transport, and military missions. **Why the Bell 412 Stands Out:**

- **Twin-Engine Reliability:** Provides redundancy and power, ensuring safe operations in challenging environments.
- **Spacious Cabin:** Offers ample space for personnel or equipment, making it ideal for SAR and medical missions.
- **Multi-Mission Flexibility:** Can be configured for numerous roles, from troop transport to firefighting.
- **Durable and Dependable:** Built to handle the toughest missions with ease, providing reliable service worldwide.

The Bell 412 is the helicopter of choice for operators who need a powerful, flexible, and trustworthy aircraft for a wide range of challenging missions.

Condition and Unit of Sale

RENTAL TOOL - NOT FOR SALE: This item is available for rental only and is not for purchase. It is part of our specialized rental tool inventory, designed for temporary use. The tool has been professionally maintained and inspected to ensure optimal performance. Each rental tool undergoes regular servicing to meet high operational standards and is ready for immediate use in your project.

SINGLE RENTAL: This is a single rental item available for temporary use. The item has been carefully maintained and inspected to ensure it meets all operational standards. Ideal for short-term projects, this rental tool offers a cost-effective solution without the need for a long-term investment. For proper usage, please refer to the spec sheets and repair manuals associated with this item. Contact us if you have questions about the rental Process, or to arrange a long term rental period.
