

AN-2YA - TERMINAL, LUG, NSN: 5940-00-557-4339, NIIN: 5574339

Description

AN-2YA - TERMINAL, LUG

NSN: 5940-00-557-4339, NIIN: 5574339

New Surplus, Sold Per Each

A terminal lug is a device used to securely connect electrical wires to a terminal or electrical equipment. It typically consists of a metal connector with one end designed for attaching a wire and the other end designed for fastening to a terminal point, such as a screw, bolt, or stud.

Specifications

Surface Treatment: Tin Except Insulation Single Layer

Material Thickness: 0.109" Material: Copper Alloy

Material: Plastic Polyamide Insulation Or Plastic Vinyl Insulation

Mounting Facility Thickness: 0.109"
Mounting Hole Diameter: 0.266"
Mounting Tongue Width: 0.711"

Overall Length: 2.069" Overall Width: 0.711"

Electrical Insulation: Insulating - Sleeve

max Conductor Size: 2 Awg Identification Code Color: Red

Part Number: AN-2YA Unpunctuated: AN2YA NSN: 5940-00-557-4339

NIIN: 5574339

Replaces Cancelled NSN: 5940-00-204-7811, 5940-00-518-8690, 5940-00-549-9265, 5940-00-681-7852, 5940-00-822-4651, 5940-00-841-2448, 5940-01-023-8578, 5940-01-115-1936

AN standards, originally developed by the U.S. Army and Navy, cover a variety of components such as bolts, nuts, and fittings, ensuring compatibility and reliability in military and aerospace systems.

New Surplus: These parts are classified as new and unused, meaning they have not been installed or placed into service. However, they come without traceability or original manufacturer certifications, which might be required for certain high-level regulatory uses. Our company provides its own Certificate of Conformance (CoC) as a statement of assurance that the parts are in good working condition and have been sourced from reliable channels. These are ideal when the focus is on cost-effectiveness without compromising on quality.

Sold Per Each: This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.

Product Testing: Every product is inspected for accuracy, quality, and functionality before shipping to meet our high standards.

Alternate Part Numbers: Due to the nature of ever-evolving part numbering structure, multiple part numbers may meet the same specifications and performance standards. If only an alternate part number is available, we will contact you to confirm compatibility. We strongly recommend consulting the appropriate repair manuals to ensure accuracy before using an alternate part.
