

AN815-6D - MALE TO MALE BOSS NIPPLE, ANNODIZED ALUMINUM ALLOY

Description

AN815-6D - MALE TO MALE BOSS NIPPLE, ANNODIZED ALUMINUM ALLOY

New Surplus, Sold Per Each

Type: Male to Male Boss Nipple

A Boss Nipple is a short, threaded connector used to join two female-threaded components in hydraulic or pneumatic systems. It provides a secure and leak-resistant connection.

Standard: Army-Navy Standard / AN Standard

AN standards, originally developed by the U.S. Army and Navy, cover a variety of components such as bolts, nuts, and fittings, ensuring compatibility and reliability in military and aerospace systems.

Series: AN815

Material: Aluminum Alloy

Surface: Annodized

Connection Type: Flared With Gasket Seal (All Ends)

Style: Flared With Center Wrenching

Outer Diameter: 3/8"

Thread: 9/16-18

Nominal Length: 1.375"

NSN: 4730-00-684-6916

Minimized: AN8156D

Possible Alternatives: AS5174D0606, 491-052, 946-20-65-205

Note: Some part numbers may serve as functional alternatives to the original, offering similar specifications and performance; however, prior verification is recommended to ensure suitability for the intended application.

Potential Capabilities

Indicates models that may be compatible based on initial data, but prior verification is advised

Bombardier Challenger 601
Bombardier Challenger 604
Bombardier Global Express
Bombardier Learjet 40
Bombardier Learjet 45
Bombardier Learjet 55
Bombardier Learjet 60

Hawker 800
Hawker 800XP-850XP
Hawker 900XP

Product Testing: *Every product is inspected for accuracy, quality, and functionality before shipping to ensure it meets our high standards.*

Alternate Part Numbers: *With the transition from AN to MS and NAS part numbering systems, there are often multiple part numbers that meet the same specifications and performance standards. If only an alternate part number is available, we will contact you to confirm its compatibility with your application. We strongly recommend consulting the appropriate repair manuals to ensure accuracy before using an alternate part.*

Model Compatibility: *We are committed to providing accurate and up-to-date compatibility information for our parts. While the listed models reflect verified applications, this list is continually expanding. If your model isn't listed, it may still be compatible, and we encourage you to consult your repair manuals to verify the required part number before placing an order. Additionally, if you believe a model should be listed, please contact us so we can update our records accordingly.*

New Surplus: *These parts are classified as new and unused, meaning they have not been installed or placed into service. However, they come without traceability or original manufacturer certifications, which might be required for certain high-level regulatory uses. Our company provides its own Certificate of Conformance (CoC) as a statement of assurance that the parts are in good working condition and have been sourced from reliable channels. These are ideal when the focus is on cost-effectiveness without compromising on quality.*

Sold Per Each: *This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.*
