

AS5192J10 - Fitting, Tee

## **Description**

# **AS5192J10 - FITTING, TEE**

Condition: New Surplus

Unit of Sale: Sold In Bulk - Priced By Weight

### PART NUMBER INFORMATION

Unpunctuated: AS5192J10

#### **AS STANDARD**

AS (Aerospace Standard) components are designed to meet the high-performance and safety requirements of the aerospace industry. Manufactured from high-quality materials like **titanium**, **stainless steel**, and **specialized alloys**, AS parts ensure durability and performance in extreme environments. Each AS part is coded to ensure compliance with aerospace industry standards and provides traceability for safety-critical applications. Refer to **specification sheets** for precise details.

#### **HISTORY**

**AS STANDARDS** were created by **SAE International** (Society of Automotive Engineers) to address the growing complexity of aerospace manufacturing. The introduction of these standards allowed for consistent quality across the aerospace supply chain, improving both the production and maintenance of aircraft and spacecraft.

#### **Condition and Unit of Sale**

**NEW SURPLUS:** These parts are classified as new and unused, meaning they have not been installed or placed into service. However, they come without traceability or original manufacturer certifications, which might be required for certain high-level regulatory uses. Our company provides its own Certificate of Conformance (CoC) as a statement of assurance that the parts are in good working condition and have been sourced from reliable channels. These are ideal when the focus is on cost-effectiveness without compromising on quality.

**SOLD IN BULK - PRICED BY WEIGHT:** This item is sold in bulk and priced by weight. The total price will be determined based on the weight of the item at the time of purchase. This is ideal for projects that require flexibility in quantity. Please refer to the product details for specific weight and pricing information.
