

MS9089-24 - Bolt

Description

MS9089-24 - BOLT

Condition: New Surplus

Unit of Sale: Sold Per Pack

SPECIFICATIONS

New Surplus Sold In Bulk Set Of 10

PART NUMBER INFORMATION

Unpunctuated: MS908924

MS STANDARD

MS STANDARD (Military Standard) components are engineered to meet the rigorous requirements of military and aerospace applications, ensuring exceptional **reliability** and **performance** under demanding conditions. Crafted from high-quality materials like **corrosion-resistant steel** and **anodized aluminum alloys**, MS components are designed to withstand extreme environments such as high temperatures and corrosive conditions. Each MS part guarantees compliance with strict standards and is identified by its specific part number. Refer to **specification sheets** for details.

HISTORY

MS STANDARDS were developed in the mid-20th century by the U.S. Department of Defense to streamline parts procurement for military systems. By creating these standards, the military ensured that parts could be reliably interchanged across various platforms, improving supply chain efficiency and reducing maintenance complexity.

Condition and Unit of Sale

NEW SURPLUS: These parts are classified as new and unused, meaning they have not been installed or placed into service. However, they come without traceability or original manufacturer certifications, which might be required for certain high-level regulatory uses. Our company provides its own Certificate of Conformance (CoC) as a statement of assurance that the parts are in good working condition and have been sourced from reliable channels. These are ideal when the focus is on cost-effectiveness without compromising on quality.

SOLD PER PACK: This item is sold by the pack, with each pack containing a specified quantity of units. The number of items per pack is clearly indicated in the product details. Purchasing in packs offers a convenient and cost-effective way to obtain the necessary quantity for your project. Be sure to check the product specifications for the exact pack size.
